The school period is one of the best memories of people. There will learn new things from their teachers, they know many friends and get in touch with a healthy environment. However, there are still hidden school corners and what makes students more annoying are the bullies. When you come to school with a good mood, you will surely go smoothly and get the best learning outcomes, as expected. On the contrary, having just entered the school gate, you have to worry about a certain bear's head that blocks the road and using violent acts and threatening words. This is not good for the body and spirit. Rockstar Games has released a game that reflects this in the most honest way ever. Bully is always among the most popular products not only at the present time, but from the moment it was released as Gamer since 2006. In 2016 it was a version of the game released at the 10th anniversary of this game in the market. It was called Bully: Anniversary Edition sold on Google Play for about \$ 6. This is a fairly cheap price for a product that is very appreciated by many people. If you understand, it's a product that collects a lot of popular content from the previous sections and then change to become a complete game. This game is too worthy of experimenting if you are a long-standing fan or a person who has just discovered the game in a few months. A high-class product a fundamental thing that everyone knows before downloading the game, how to see the phone configuration first. À ç à,~ À "Bully: Anniversary Edition, à,~ is a complete product and uses the best features, so players must also have a more powerful Android smartphone. The minimum requirement is that players must be equipped with Android 8.0 to be compatible with this game. Also in the recent update, the game is updated to a new level and allows players to use the game with Android 9. This progress is a good base for the game continue to move towards the future and release more new patches, adding a New gameplay for players to experiment. It was due to pouring all its technology to update the game compatibility for the high-end version ", À ç à,~ À" Bully: anniversary edition "saved a lot of efforts in data compression. For example, other games allow players to download their products often in two directions. One is that they will contain everything in the download file, even if it is a little slowest, the player will have an accurate quantification of the game they are playing. Secondly, they will provide a file as a client and therefore the real capacity will be added to the device via an internet connection. This is usually used for online games. Bully: Anniversary Edition is very compact, only about 11 MB of sizes, thanks to technology updates. But it works in a second way, once you have the APK file, everything starts being added to your device. This does not require more time. The smartphone that can operate with Android 8.0 has enough power to run this game already. So it doesn't matter if you have a strong wifi. In general, this is a product that is done extremely well with many interesting features that if you qualify, you shouldn't ignore it. A small disclosure, if you still want to experience it without a strong smartphone, play with the PC version. It only requires a minimum configuration to play and can still work smoothly. Attractive image design - describing a real life just looking at it once, you can understand how this game has been designed. The player will have completed the movement of each character, it seems that 3D animations are shown in theaters. The school is vividly made to small details, the characters of the game are built as a real character in the movie. Both the main character and the minor character have their own personality and training correspond to it. Every corner of the Bullworth Academy is revealed to players the most clearly possible. The corrupt and collapse preparation school will be the place place The character struggles to survive for a year there. Attractive gameplay - the variety of styles that honestly describes the way a mischievous student is put in a terrible school. Players will experience all bad habits that have been present in a modern school. Players face more corrupt and disruptive students gathered on a special school for them. You will become a joke for them or will be able to resist before being frustrated and crying. Never give up, even if the teachers are always late in helping bullying students. In the end, they still have to follow justice. You will also experience a series of love student attacks with girls arranged in the game. Every girl will be a different personality to learn and market again. Sometimes you will have to choose to stay cool and resist bullying or becoming more soft to be able to please your girlfriend. However, never lose your identity. The noticeable improvement bully: Anniversary Edition is a collection of all the essences of the previous games. High resolution display, advanced graphics, improved lighting and textures and redesigned controls for the Touch gameplay. À ç à,~ | They are all inherently inherited. Players can also become exciting new gameplays. It is one of the most popular topics in the lively discussions in this game forum. Friendship challenges allow players to participate in mini-games organized in class periods. This gameplay allows players to compete with classmates to show their real talents. If you win, you will show the bears you're at all-round, good in learning and hasn't been bullying. These mini-games seem simple as the rapid frog in biology, solve the problems of words in English, help a flying squirrel destroy his enemies with acorns in dice strokes, and much more. They will act as arcade games with simple operating mechanisms, the controls must not be too complicated. The only thing necessary in these competitions is that the player must be sensitive to the situation and commenting the weakness and exploit of the opponent. The little awards of this game will be able to help you get an advantage in real battles outside the class. You can win them in the classroom but out it's a much more fierce battle. Bully: Anniversary Edition: Rockstar Games Groundbreaking, original gameplay and tongue-in-the-go District-in-the-theket Attack on the Schoodyard, Storytelling Bulli Tradition: Anniversary Edition. Like the 15 years Jimmy Hopkins, you will explore the social hierarchy of corrupt and broken schools, the Bulworth Academy. Stand by teachers, raises for Sarafon, running on a submersible table, dyeing, winning or losing a girl and staying in bad schools for a year. Bulli: anniversary anniversary celebration Edition includes everything: the version of scholarships has a new challenge of games, new multiplayer with touch design and gameplay, including design and high resolution displays, additional graphics, improved lighting and support.Challenges to my head head head and mini-arcade games: See Whoever solves a fast frog in biology, your enemies in English The original shots can break in a word of flying rings word problems, in acorns and much more help in the destruction of culture.caratures: excludes additional missions, characters, mini-games And Balls With Non-Invadent Articles: Study Bags VersionBeautiful Graphics: High Resolution Textures, Effect Dynamic Light, Shadow and Particle Eekectisic SupportBasic For Displ High resolution Ayschallenge Your friends everywhere with multiplayer shift challenges. Run along the way and find out when you're on the Touch control of Gosmart with a conservative button when it's Ikeep Rockstar Games Social Club that plays your cloud easily save all your devicesupport for physical controllers The mobile version was developed with the help of the war Drum Studios.Rockstar Games New York, NY 10012 À © 2005-2016 Rockstar Games, Inc.
